IMPACT REPORT

HAND EMBROIDERER KANTHA WORK

Keeping in view the efficiency of the women of Kumardih village with the cooperation of the representatives of the silk production company, the production company has given them an opportunity to do hand embroidery work on cotton clothes so that, after working on cotton clothes, women can work on silk sarees. Which will connect them to the big income of the fashion industry.

Seeing the eagerness and commitment towards hand embroidery work on silk sarees. Silk production company expressed willingness to engage women to work on silk sarees. This collaborative initiative is of great value not only to the trained women but also to the local community.
